How to Get to Zero Waste

What's Zero Waste?

Zero Waste is a fresh approach to waste management. It goes beyond the three R's (reduce, reuse, recycle) to rethink our concept of trash by encouraging waste prevention and the way we use resources.

Visit the new Zero Waste section on the web at:

www.cityofirvine.org/environmentalprograms

Featured in the Zero Waste section:

- Learn to compost (both backyard and worm composting);
- Find clever ways to discard items without trashing them (like your unwanted books, toys and electronics);
- Get tips on how to be a Zero Waste consumer;
- And much more!
